Splint

"I have used Sloan's Liniment on a fine mare for splint and cured her. This makes the third horse I've cured. Have recommended it to my neighbors for thrush and they say it is fine. I find it the best Liniment I ever used. I keep on hand your Sure Colic Cure for myself and neighbors, and I can certainly recommend it for Colic." —S. E. SMITH, McDonough, Ga.

MR. R. W. PARISH, of Bristol, Ind., R. No. 2, writes: "I have used lots of your Liniment for horses and myself. It is the best Liniment in the world. I cured one of my horses of thrush. Her feet were rotten; the frogs came out; she laid down most of the time. I thought she would die, but I used the Liniment as directed and she never lies down in the daytime now."

TEXAS AS COMING WATERMELON STATE

LONE STAR PRODUCT THREATENS TO TAKE GEORGIA'S VAUNTED PRIDE DOWN.

SAN ANTONIO, Tex., Jan. 30.—That the Texas watermelon will soon have the right of way has been very much in evidence this year. While the Georgia grown melon has made a name for itself, the Texas article promises to make Georgia play in second place both in the number produced and in deliciousness. Texas shipped 2,400 car loads of melons in 1910. This, of course, does not include those consumed at home. These shipments netted the farmers of the State \$470,000. Indications now are to the effect that the crop this year will be double that of last.

MANY COLUMBIANS TO ATTEND MISSION WOMAN'S CELEBRATION

ALL OF THE CHURCHES OF CITY TO BE REPRESENTED AT NASHVILLE.

MEETING WILL LAST FOR TWO DAYS

Mrs. Frederick Hardy Heads Large Delegation Which Leaves for Capital City for Observance of Half Century of Work in Foreign Fields.

(Monday's Daily.)

Great interest is manifested here by the women of the several church foreign missionary societies in the big jubilee celebration which begins in Nashville today. The exercises which mark the celebration of the fiftieth anniversary of woman's work in the foreign fields will be attended by women from all over the State and will be notable. When one contemplates the immense amount of work that has been accomplished by the women in the foreign missionary fields he can hardly realize that it has been only a brief half a century since the movement commenced.

A large number of delegates went from Columbia this morning to attend the celebration, practically all the churches of the city being represented. There would have been an even larger attendance from here but for the fact that tickets for the big luncheon, where the star speakers will be heard were exhausted several days ago and many who sought them could not obtain them.

Much of the interest here in the jubilee is due to the very efficient work that has been done by the organizer, Mrs. Fred Hardy, who has labored with zeal for the success of the movement. Mrs. Hardy accompanied the local delegation to Nashville and will have a prominent part in the celebration there. Others will join the delegation in Nashville tomorrow.

Among those who went to Nashville this morning were Mrs. Hardin P. Figures, Mrs. Edward P. Turner, Mrs. Hilary L. Hendley, Miss Caroline Williams, Mrs. Frederick Hardy, Mrs. Walter P. Wolridge, Mrs. William J. Dale, Mrs. Rebecca McLemore.

BOOK COMES AT TIME OF POINTERS DEATH

JOHN TROTWOOD MOORE'S NOVEL OF TENNESSEE OFF THE PRESS THIS MONTH.

The Denver Times has the following to say about the latest novel of John Trotwood Moore's latest production:

"The announcement of the death of Star Pointer, the great pacer, at the age of 21, came almost simultaneously with the announcement of Little, Brown & Co. that John Trotwood Moore—known to horsemen as Trotwood—had in press an autobiography of another member of this famous family of pacers, Hal Pointer.

Mr. Moore's book is a novel of Tennessee life in which the story of Hal is told from the day he was foaled to the evening of his last and greatest race. "The Gift of the Gras" has been published. Its author, however, is the man who called the great middle basin of Tennessee "The Dimple of the Universe."

PASTOR RUSSELL HAS WORDY TILT WITH ATLANTA PREACHER

W. A. CUDDY BOLDLY DISPUTES WORDS OF FAMOUS BROOK-LYN MINISTER.

"MILLION SOON," HE SAYS

Tilt Between Clergymen in Washington Convention Building Draws Congregation Into It and Police Send All Home to Prevent Continuance

WASHINGTON, Jan. 29.—When Pastor C. T. Russell, of the Brooklyn Tabernacle, Brooklyn, N. Y., speaking today at convention hall on the millennium, announced that Christ would return to earth in 1915, he was dramatically challenged by W. A. Cuddy, an evangelist, of Atlanta, Ga. In the rapid fire exchange of words that followed, the crowd became excited, and a panic was averted only by the suppression of Cuddy, who was led aside by friends.

More than 1,000 people hissed and hooted when Cuddy interrupted Russell and declared that 1915 was altogether too soon for the millennium. "Put him out," cried several in the audience. "Let him stay; he's all right!" cried others.

When Pastor Russell was able to proceed he declared that the Bible supported his contention that the millennium was due soon. Cuddy burst forth again, charging Russell with "rank heresy" and with attempting to foist his views on weak-minded and ignorant people who never read the Bible. The crowd resented this, and Cuddy was jostled about in the hall until he was out of hearing range.

When the meeting was concluded, however, Cuddy stationed himself outside the hall near the entrance and resumed his refutation of Pastor Russell's remarks. The police threatened arrest. But Cuddy defied them. Finally the police decided another way to accomplish their end would be to disperse the crowd, and Cuddy walked angrily away.

STRANGER GIVES HIM HIS DOPE

CIVIL ENGINEER FOUND UNCONSCIOUS AT MEMPHIS—POCKETS RIFLED.

MEMPHIS, Tenn., Jan. 28.—Robbed and unconscious from "knock-out drops," P. J. Griffin, civil engineer enroute from Baltimore to Birmingham, was found lying on the spur of a railroad track adjunct to the warehouse at 137 East Calhoun avenue by a patrolman early Friday morning. Griffin's pockets were rifled and an empty vial labeled laudanum, and a half filled bottle of whisky, smelled plainly of dilution with the poison, were found by the officer nearby. Griffin was taken to a local hospital and will recover. He says he was invited to take a drink by a stranger.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and asisting nature in doing its work.

The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
