

## SHERIFF WHITE RETAINS OFFICE

Governor Please Drops Charges of Neglect of Duty Against Spartanburg Sheriff.

Columbia, Dec. 15.—In response to a rule to show cause why he should not be removed because of alleged neglect of duty Sheriff W. J. White of Spartanburg, appeared before Governor Please today with his attorney, Mr. DePass of Sanders & DePass, and made answer to the rule. Solicitor A. E. Hill of Spartanburg and Detective E. F. Hammond of the governor's force, also appeared. After the hearing the governor announced that while from the showing, Sheriff White possibly had been partial in the discharge of his duties, still there was not enough cause to remove him from office. The order to show cause was dismissed and the Spartanburg sheriff will remain undisturbed.

## Liege Has Been Rebuilt Into a Model Fortress.

Amsterdam, Nov. 28.—No better illustration can be given of the farsightedness and thoroughness of the German military machine than the elaborate re-building operations in course of completion at Liege. In the comparatively short time since its forts were wrecked by the invader's artillery, Liege has been rebuilt into a model German fortress, and is to be used as an object lesson for students in the German military schools. It is built as though the Germans expect to stay.

All the Belgian forts have been repaired, with a single exception; much of the old artillery has been replaced with Krupp fortress cannon of the latest type, and even the landscape has been remodelled with a view to defense. All the newest ideas of German and Austrian military experts have been embodied in the placing of ordinance, in the erection of ramparts in trenches, observation places, highway mines, secondary batteries, and block houses.

There is an intricate system of connecting works between the various main points of the outlying defenses. Great attention has been paid to the use of villages and forests for concealing fortifications. The trenches are flat with the ground so as to be visible only from above, and are protected with concealed bobwire entanglements. The trenches are drained and partially covered for protection against rain and snow, while the width is ample enough to allow carriage of stores and ammunition without interfering with the troops.

A considerable part of the hard labor involved in completing the trenches is done with a "military traction trench digger," which cuts a furrow about three feet wide and three feet deep.

Most of the old Belgian forts have been entirely remodeled; some have been raised, some lowered, with a view to greater efficiency of shell fire or to increasing the sweep of country which their guns can command. There are several false batteries cleverly constructed to attract aeroplanes or cavalry attack.

The town is dull and quiet. All shops and cafes are required to close at 8 o'clock in the evening. Newspapers are at a heavy premium.

Pastor Russell's Rot.  
Greenwood Journal.  
The Daily Journal is in receipt of the following letter from the study of Pastor Russell:

Gentlemen: Samples of the Brooklyn Tabernacle Bible Study service are enclosed herewith. You will find it a twentieth century explanation of the Sunday school lessons, different from anything ever out before—just the thing to interest your readers. Use one of the enclosed blanks for sending us your order and we will get the service started to you at once. This is the most popular religious feature the newspapers have ever had. We will hope to add you to our list of subscribers at an early date.

"Very truly yours,  
"Pastor Russell Lecture Bureau."

This matter is furnished in plate, and it will be interesting to note how many newspapers run by Christian men will accept this offer and run this stuff which is just as rotten as it can be. It is labeled Christian, but if like all of Mr. Russell's stuff, it is utterly subversive of the Christian faith. If there is any literature that passes through the mails that is more dangerous than that sent out by this so called pastor we do not know where it can be found. We do not want our list of subscribers increased at such a fearful cost. This newspaper will not send poison into the homes of the people into which it goes. It stands for what is true and honest and of good report and so repudiates Pastor Russell and his teaching and all like him.

never fails. That's why millions of people are using "GETS-IT" today and throwing away their fussy plasters, sticky tape, toe-eating salves, and "wrapping outfits" that make a bundle around the toe and choke it into pain by pressing either on or around the corn. There is nothing to stick to your stocking, nothing to cause inflammation or rawness, nothing to press on or around the corn. You apply it in 2 seconds. No more knives, razors, scissors or files, with their blood-poison dangers. Try "GETS-IT" for that corn, callus, wart or bunion.
